June
30
Tuesday

- Submission: June 30, 2020
- Notification: July 30
- Camera ready: Aug 30
- Meeting: Nov 8

KEYNOTE SPEAKERS

Rachel Bellamy
IBM Research, NY: *"Fair AI in Practice"*

Lionel Briand
U.Ottawa, Canada: *"Natural Lanaguage and Software Requirements"*

Dr. Rachel Bellamy: Fair AI in Practice.
Fairness is an increasingly important concern

Welcome to the 16th International PROMISE Conference on Analytics in SE. For decades, PROMISE has lead the SE field in open science. Here, we place a high premium on work that can be repeated and/or improved and/or refuted by other researchers. Hence we focus on those conclusions that can be reached automatically, via data mining. Also, we strongly suggest that PROMISE authors share their tools and data.

Our theme for PROMISE'20 is Ethical AI. Models generated by AI-for-SE tools are assessed by their predictive performance (via accuracy, recall, etc). But groups like the IEEE, the Europeran Union, and Microsoft now demand we assess our tools using other ethical criteria. Hence, PROMISE'20 asks:

> Can we now apply and adjust our AI-for-SE tools (including predictive models) to handle ethical non-functional requirements such as inclusiveness, transparency, oversight and accountability, privacy, security, reliability, safety, diversity and fairness?

To support our PROMISE'20 theme on Ethical AI:

- We ask PROMISE'20 authors to offer one (or more) section(s) in their paper on how their technology comments on ethical non-functional requirements. For more details on these kinds of requirements, see notes on ethics, below. This request is optional: PROMISE'20 is also a venue for "classic" PROMISE research that explores predictive modeling.
- We have invited keynote speakers to address these broader issues of AI-for-SE tools.
- We are planning a lively "fish-bowl panel" for this meeting where all participants can comment on ethics and AI-for-SE.
- This meeting will be followed by a special issue of the Empirical Software Engineering journal, focusing on the issues of this conference.

ORGANIZING COMMITTEE

general chair: Leandro Minku
University of Birmingham

co-pc-chairs:
Tim Menzies, NC State, USA
Mei Nagappan, U.Waterloo, Canada

proceedings: David Bowes, UK
publicity: Igor Steinmacher, USA
and Xin Xia, AUS

Program Committee

Ho Khanh Dam	U.Woolongong, Aus
Giuseppe Destefanis	Brunel, UK
Carmine Gravino	U. Salerno, Italy
Rachel Harrison	Oxford Brooks, UK
Yasutaka Kamei	Naoyasu U., Japan
Lech Madeyski	Wroclaw U., Polsand
Shane McIntosh	McGill U, Canada
Jaechang Nam	HGU, Sth.Korea
Maleknaz Nayebi	U.Toronto, Canada
Fabio Palomba	U.Zurich, Switzerland
Daniel Rodriguez	U. Alcala, Spain
Martin Shepperd	Brunel U., UK
Ayse Tosun	ITU, Turkey
Hironori Washizaki	Waseda U., Japan
Xin Xia	Monash U, Australia
Zhou Yuming	Nanjing University, China
and others	TBD
